

## **Steps for Advanced Email Setup on Android devices:**

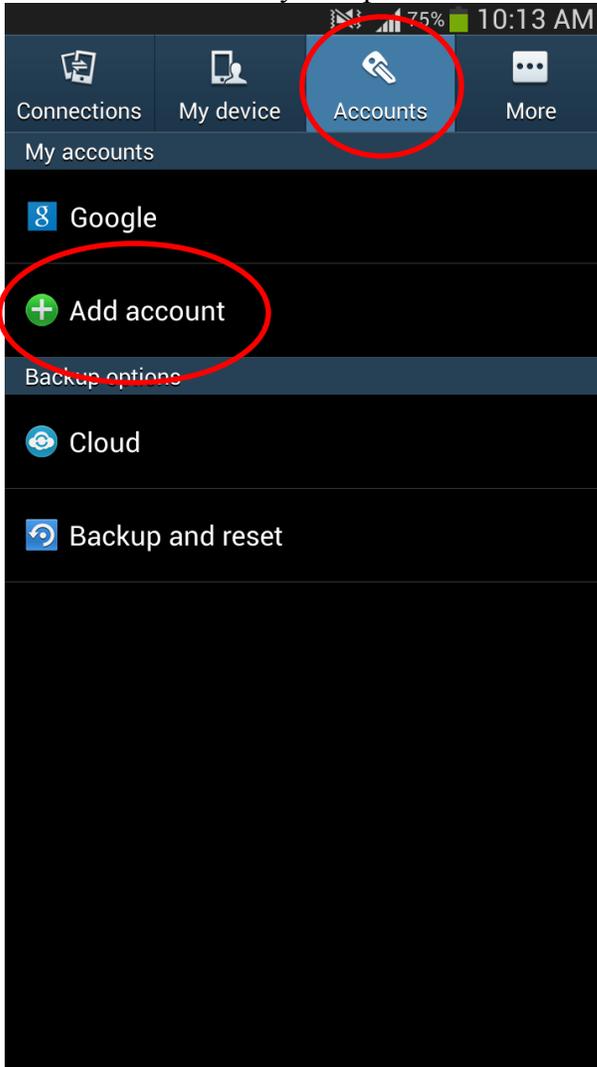

Advanced Email integrates natively over-the-air with the Mail, Address book and Calendar applications on devices running Android Operating System release 2.1 and later (Please note that some mobile phone manufacturer have further enhance to support the synchronization of Tasks). By using the ActiveSync protocol no additional download is required, only that Wi-Fi or a mobile data is enabled. Follow the procedure below to setup your mobile device.

Please follow the steps below for setting up your Android devices: (Below example use Android v4.3 screen capture, there may be some delta differences between Android versions)

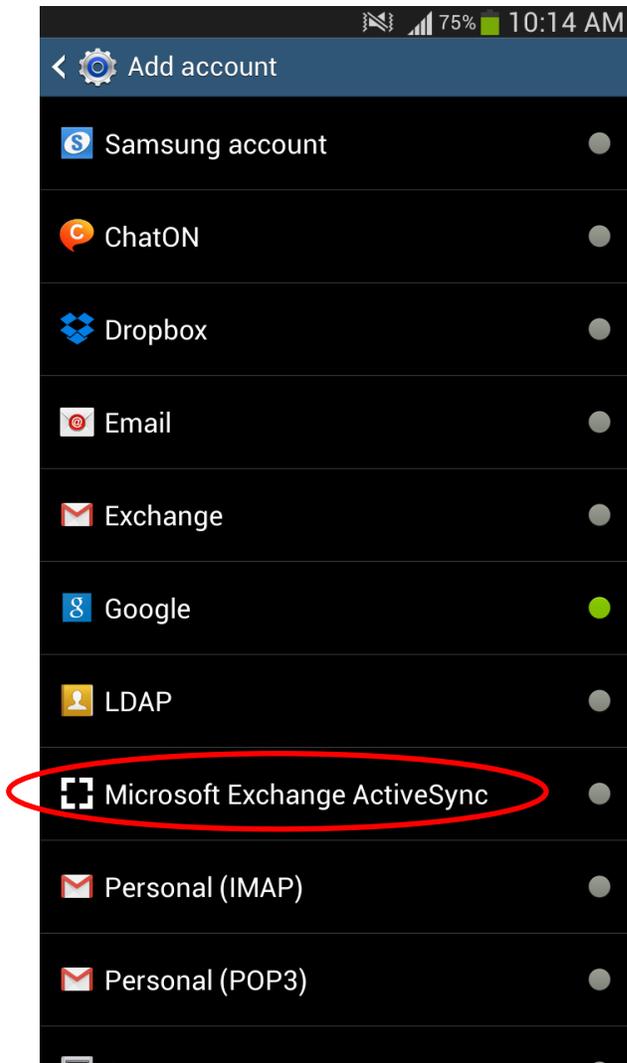

- 1) On your Android desktop (or menu screen in some cases), tap the “Settings” icon

2) Select “Account & Sync” option and select “Add Account” option

- 3) Select “Microsoft Exchange ActiveSync” option (please note some phone may call this “Microsoft Exchange”)

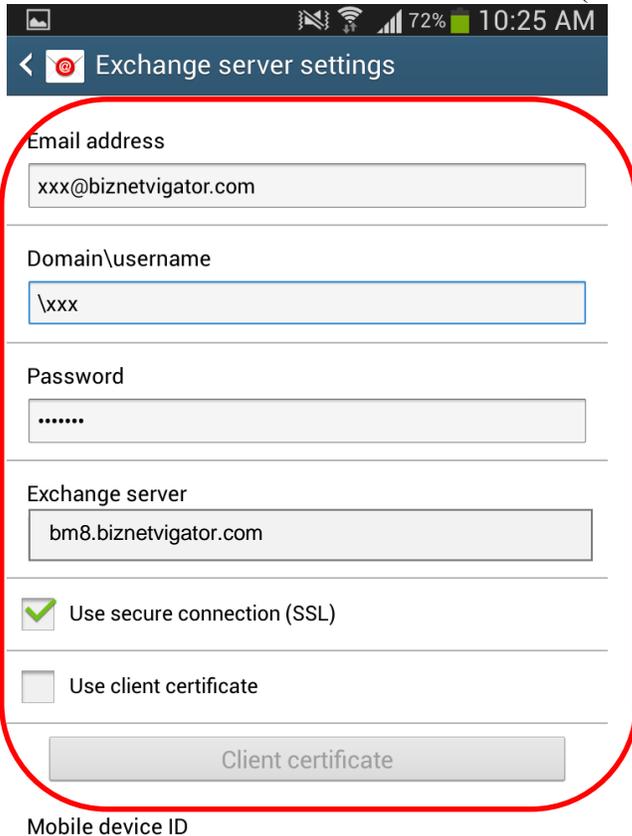

- 4) Enter your email address to “Email address” field, e.g.: [zimental@netvigator.com](mailto:zimental@netvigator.com), then tap “Next” button  
Enter your email password to the “Password” field, then tap “Next” button

xxx@biznetvigator.com

.....

Show password

- 5) Enter your email address to the “Email address” field, e.g.: [zimental@netvigator.com](mailto:zimental@netvigator.com)  
Enter your name to the “Domain\username” field; please add the “\” first  
Enter your email password to “Password” field,  
Enter “**bm8.biznetvigator.com**” to the “Server” field,  
Tick the checkbox “User secure connection (SSL)”, then tap “Next” button

Exchange server settings

Email address  
xxx@biznetvigator.com

Domain\username  
\xxx

Password

Exchange server  
bm8.biznetvigator.com

Use secure connection (SSL)

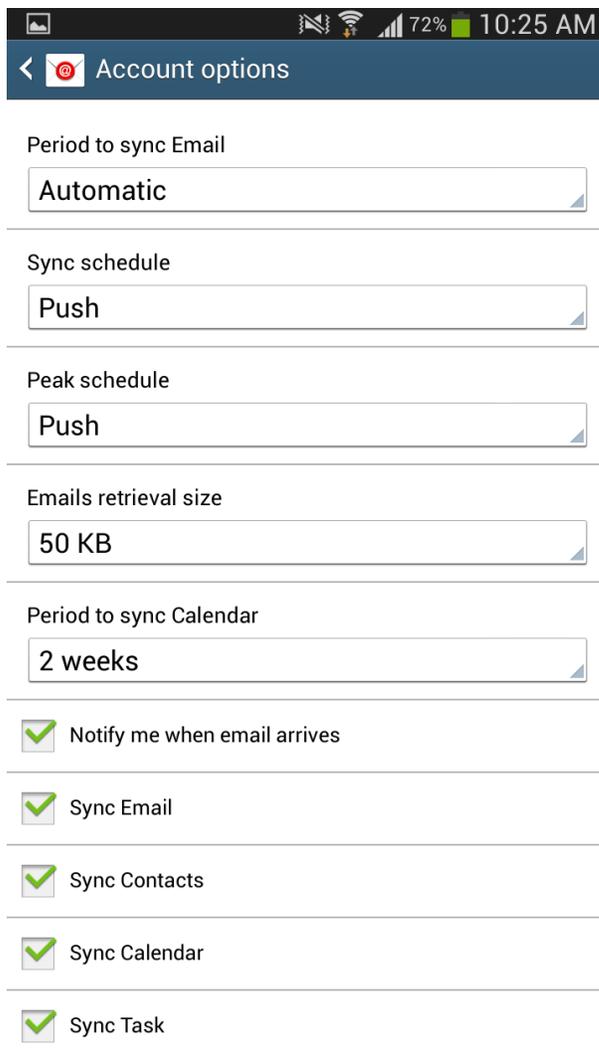

Use client certificate

Client certificate

Mobile device ID

Next

- 6) Configure your email account option in “Account settings” screen, e.g.  
Set the [Period to sync Email], the [Sync schedule], the [Peak schedule] , the [Emails retrieval size], and the [period to sync Calendar]  
Tick/not tick [Notify me when email arrives]  
Tick/not tick [Sync Email]  
Tick/not tick [Sync Contacts]  
Tick/not tick [Sync Calendar]  
Tick/not tick [Sync Task], then tap “Next” button

Account options

Period to sync Email  
Automatic

Sync schedule  
Push

Peak schedule  
Push

Emails retrieval size  
50 KB

Period to sync Calendar  
2 weeks

Notify me when email arrives

Sync Email

Sync Contacts

Sync Calendar

Sync Task

- 7) Last step is to give a “name” to this email account (because user may have multiple email account on Android, this will give identity to a particular account), e.g. your email address or type “Advanced Email”.

Tap “Done” button to finish the setup

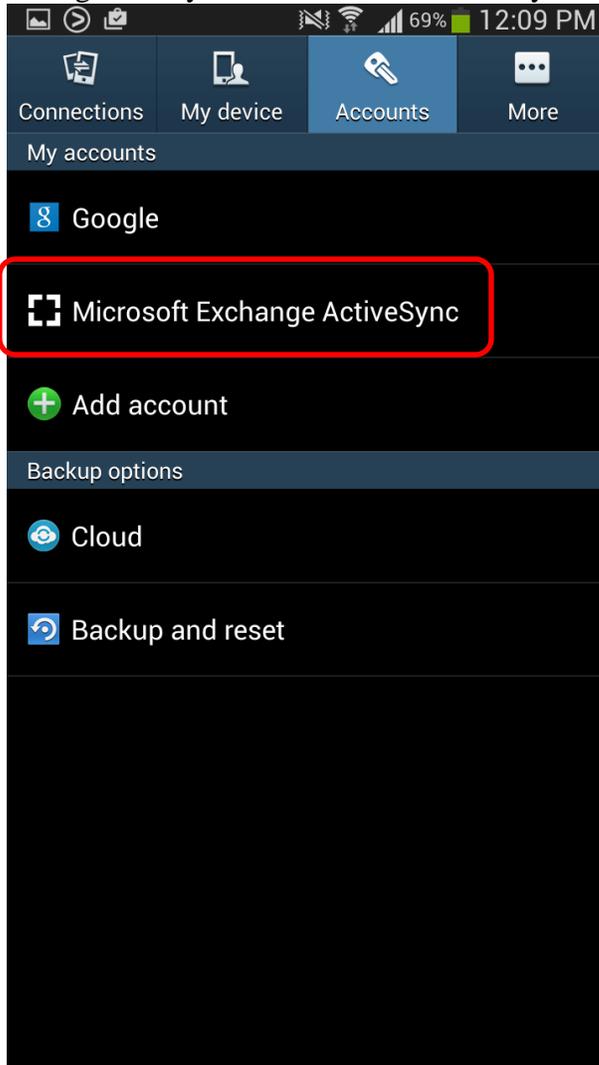

Your account is set up, and email is on its way!

Give this account a name (Optional)

- 8) Setup is completed, now the Advanced Email account is shown on the account list, background sync is in action immediately.

Thank you for using Business Netvigator Advance Email service.
